Learn About Us

Green Star Technologies is a Service-Disabled Veteran-Owned Small Business (SDVOSB) based in Ohio. We are Master System Integrators with over 10 years experience in the Building Automation System (BAS) industry. Providing open source solutions is our area of expertise. Leveraging a joint-venture (Green Star Enterprises JV) with Enterprise Controls Group, we provide support to large clients using the best system integrators, project managers, and engineers.

Core Competencies

System Integration (Multiple Platforms)
Data Analysis & Analytics
Building Commissioning
Energy Management
